MANAGING PARTNER-JOSEPH CARR

WELCOME

JMC Landscapes are experienced commercial contractors with longstanding relationships with building contractors, schools, local businesses and Local Authorities in the North East.

We provide commercial landscaping, estate management and horticultural support for larger projects.

JMC Landscapes regularly work with a wide range of building contractors, site contractors, architects & management companies or directly with site owners undertaking all aspects of hard and soft landscaping.

We look forward to working with you in the future.

A 60 Acre site managed by JMC Landscapes

From its inception in 2010, we embarked on a wide range of services from seeding to fencing and from house foundations to paving.

In 2014 at Durham Gate, we implemented an extensive planting scheme around the site resulting in planting over 70 flower beds including 2000 shrubs. To minimise weed control we used a membrane & ornamental bark making this a highly effective solution to weed control.
