# GROUNDS MAINTENANCE SOLUTIONS

JMC Landscapes maintenance teams specialise in maintaining a complete environment in which people live and thrive.

We maintain sites around County Durham where each site has its own special features and horticultural needs, and all are perfectly cared for by the skilled, committed members of the teams dedicated to this area of JMC Landscapes services.

We have committed to investing in the latest plant and equipment to deliver a quality service within our client's budget requirements.

**Whether carrying out regular grass cutting through to a full site maintenance specification we can design our maintenance schedules around your service needs.**
